The "News" is An Orphan.

Our den was invaded Tuesday afternoon by Charles Northwestern Stark, the life-giving news gatherer and the witty brain dispenser of the Williams News.

He came like the wind, and left ten minutes in advance of the "flyer," but left word with the baggage master to check his latest paper collar to Albuquerque, where he would await the train if he felt wearied from walking.

While here he fired back some news matter for the News, as he had left it to the tender care of the job man and the stenographer, and was solicitous about its appearance on time.

His comatose sighs left the impression on us that he was deeply, highly and wildly in love, and that his mad rush for the East was for the sole purpose of getting married, but as we gave this timid youth our solemn promise of secrecy, we will ring down the curtain.

To Night.

The Bittner Theater Company arrived on No. 1 to-day. The company consists of fourteen people and is said to be the strongest that has ever played in this town. It comes recommended to the highest terms by the press all along the line. The performances are continuous, that is, there are no waits or overtures between acts, that time being occupied with high class specialties and the Triograph. The Triograph is Thos. A. Edison's latest moving picture machine and is conceded to be superior to all others. There will be a complete change of play pictures and specialties at every performance. To-night the superb comedy, "Out of Darkness" will be presented. This company has filled engagements in Denver, Omaha, Lincoln, Sioux City, Salt Lake, Ogden and Leadville of from three to seven weeks to the largest business ever played to by a stock company. Such a record is surely a guarantee of excellence. Seats are on sale at Brannen's drug store. Prices 50 Cents and \$1.
